## PROFESSIONAL PROFILE

I am an enthusiastic and motivated professional, passionate about the technology, recently formed in The BOOT CAMP of University of Sydney.

I'm looking for a job as FrontEnd Developer Junior and an opportunity to grow my skills and learn more about coding.

## KEY EXPERIENCE

- Demonstrated performance developing and implementing initiatives to improve customer services.
- Solid ability to analyse and summarize customer issues in order to prepare appropriate solutions and clarifications to respond to customers, delivering prompt and professional solutions.
- Excellent experience maintaining relationships with other internal departments as well as client base to improve business performance.
- Experience conducting training to customers and internal staff on company products and services.
- Strong knowledge of administrative processes, managing and organizing information, documents, mails, contracts, files to bring greater agility to the daily office work flow.
- Experience updating customer database, by monitoring accuracy of information entries.
- Knowledge in finance, accounts payable and receivable (billing processes), reconciliations, expense analysis, control reports, risk analysis, receipt guarantee and KPI management.

## KEY SKILLS

- Exceptional organizational skills, able to bring greater visibility to the entire work team.
- Excellent negotiation skills enable me to persuade and influence people.
- Great attention to detail and analytical mindset, which help me to solve problems strategically.
- Exceptional communication and interpersonal skills, able to develop strong relationships with clients.
- Time management abilities, high level of initiative and motivation.
- High accuracy and ability to prioritise and meet deadlines, as well as define and achieve goals.
- Proficiency in Excel, Word, Power Point, Access e Internet.
- Fluent English | Native Portuguese

## EDUCATION

- **Bachelor Degree in Business Administration** | Nove de Julho University (<https://www.uninove.br>), Brazil (2012).
- **Boot Camp at University of Sydney** | 25-weeks intensive Full Stack Web Development Boot Camp which i committed a minimum of 20 hours per week through the whole course.

This Boot Camp helped me to start this new world in HTML, CSS,

Bootstrap, JavaScript, APIs, NodeJS, Express, ORM (object relational mapping), NoSQL, PWA, React, MERN Git, GitHub, as well as collaboration and Teamwork. ( 07/2021 to 02.2022).
